-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 9-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Charatan 4,836,227.

Charatan shows a oral hygiene device having a hollow tubular housing with two blunt ends; a weakened opening means 15; and dental floss 30 affixed to the two ends (Figures 1, 2). A dentifrice liquid or cream 104 may be contained in the housing.

(Although ends 16, 18 converge, the ends are disclosed as being closed, not pointed (column 5, lines 39-45). An embodiment in which the end is pointed, though, is shown in figure 9.)

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-4 & 13-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Charatan in view of Neves 6,102,051.

Charatan shows an oral hygiene device including a housing with two ends 12, 14; a weakened opening means 15; and a length of dental floss 30 affixed to the two ends; a dentifrice liquid or cream 104 may also be contained in the housing. However, Charatan does not show an elongated pointed toothpick in the housing. One would recognize that addition of a toothpick to the floss would be a more effective oral hygiene device. For example, Neves shows that an oral hygiene device may include a housing 35 with a toothpick 28 and floss 32 therein. One would recognize that addition of this toothpick to the device of Charatan would be more effective than the floss alone. It would have been obvious to one of ordinary skill in the art to provide the device of Charatan with a toothpick, as suggested by Neves.

Claims 5-8 & 17-20 are objected to as being dependent upon a rejected base claim, but would be allowable if

rewritten in independent form including all of the limitations of the base claim and any intervening claims.
